

*PACIFIC POST PARTUM SUPPORT SOCIETY
AND THE WOMEN'S HEALTH RESEARCH
CLUSTER PRESENT:*

A ROUNDTABLE DISCUSSION ON ADVANCING DIALOGUE, COLLABORATION, AND CONNECTION BUILDING BETWEEN 2SLGBTQ+ FAMILIES AND PERINATAL MENTAL HEALTH

Join Pacific Post Partum Support Society and The Women's Health Research Cluster for an afternoon of conversation around the perinatal mental health needs of 2SLGBTQ+ families.

Guiding principles:

- Personal experience and academic knowledge are valued equally
- We believe that PPD and PPA are multi-dimensional problems with social factors such as discrimination, isolation, poverty, lack of childcare, and the stressful nature of parenting playing important contributing roles.

**FEBRUARY 29, 2020 | 1PM-3PM
